MEMORANDUM FOR: See Distribution

FROM: Eloise R. Page
Deputy Director, Intelligence Community Staff

SUBJECT: DCI Exceptional Intelligence Analyst Program

1. Four years ago, the DCI Exceptional Intelligence Analyst Program was established as a long-term program to improve the quality of intelligence analysis by providing promising mid-career analysts the opportunity to tailor a training project to their own particular needs. Candidate projects can include sabbaticals at home or abroad, university study, independent research, or temporary assignments to other government agencies. Projects may be undertaken for a period of up to two years, with all training expenses underwritten by the Intelligence Community Staff and salaries continued by the analysts' parent organizations. This program is administered by the ICS/Planning and Policy Staff.

2. In an effort to extend the benefits derived from this program by both the analysts and the Community as a whole, we are circulating the attached Exceptional Intelligence Analysts' project synopses for the class of 1982 and the newly-selected class of 1983. Please review these synopses and see if you would like to collaborate with the analysts in their respective fields of endeavor. If you find a topic that is of particular interest to you, [redacted] of PPS can arrange to get you in touch with the analyst. We feel that such collaboration may be of great benefit both to you and to the analyst on the program.
